

Dear FCC,

I wanted to address your upcoming vote by registering my own vote as a U.S. citizen.

One of the founding principles of our great country is a free press representing many different voices. Further consolidation of the mass media would limit the variety of voices represented in the media, and this would be a dangerous threat to our democracy.

Please don't let the self-serving interests of a few powerful corporations determine your vote. The future of our democracy could be at stake. Thank you for your time.

Sincerely,

Brooke Tuggle
